Phœnix Fire Assurance COMPANY.
LOMBARD STREET AND CHARING CROSS,
LONDON.
Established, 1782.
For Insuring every kind of Property in all Parts of the World from Loss or Damage by Fire.

THE PROMPTITUDE AND LIBERALITY with which its engagements are always met by this Company are well known, and the importance of its relations with the Public may be estimated from the fact that since its establishment it has paid more than Nine Millions Sterling in discharge of claims for Losses by Fire.

The security offered to the Public by the Phœnix Office is unlimited, comprising in addition to the large invested capital of the Company the whole fortunes of numerous proprietors composed of some of the most opulent merchants and others in the United Kingdom. Annual and short time Insurances are effected upon all kinds of property in Vancouver Island and British Columbia on the most favorable terms.

Prompt cash payment and full power to settle all losses and claims without referring to the Head Office in London.

Deposited with Dominion Government for Security of Policyholders, $50,000.

PRESIDENT—Sir Francis Hincks, K. C. M. G. Finance Minister of Canada.
VICE PRESIDENTS—Hon. Wm P. Howland, C. B., Lieutenant-Governor of Ontario;
Hon. Wm. McMaster, President Canadian Bank of Commerce;
Issued—Over 500 Policies first half-year.

This Association issues all the most approved forms of Policies—all non-forfeiting by charter. Its principle of non-forfeiture more favorable to assured than that of any other company.

A strong company which combines strength of capital, character and local influence and provides life insurance at the lowest safe rates without delusive promises of dividends, making a good dividend CERTAIN by decreasing the premium.

By its organization it enables each policyholder to deal with his own neighbors, stockholders in the company—men whom he knows will do justice to his family after he is dead, and also provides that its funds be invested to develop the resources of his own country and locality.

A company with capital and breadth enough to be safe beyond question, with national extent and prestige, and yet a HOME company throughout the Dominion.

THE STANDARD LIFE ASSURANCE COMpany was established in Edinburgh in 1825. The Acts of Parliament, 2 deg. & 3 deg. Gul. IV. cap. 81, and 8 deg. and 9 deg. Vict. cap. 75, also 22 deg. and 23 deg. Vict. cap. 27, have been granted for the purpose of its constitution and for the regulation of its affairs. It has been conducted with much success, and that result may be attributed not only to the extensive and influential connections of the Company, but more particularly to the liberality of its dealings, and to the constant attention paid by the Directors to the adoption of improvements and facilities in connection with the contract of Life Assurance.

BONUS ADDITIONS TO POLICIES.

The Company have divided Profits on eight occasions, in 1835, 1840, 1845, 1850, 1855, 1860, 1865, and 1870, when very large additions were made to Policies. The next division of Profits will be made in 1875.

Testimonials.

We, the undersigned Physicians, practising in the city of San Francisco, have examined the result of the analysis made by Dr L. Lansweert, Practical Chemist, of the Napa Soda Springs of Napa. The water, according to this examination, possesses aperient antacid and fine properties, which cannot fail to be very beneficial in the treatment of chronic diseases, and affording a pleasant, healthful and invigorating beverage.

The Railway Embargo.

We have never been able to understand upon what possible ground the Provincial Government could justify the act of assenting to the reservation of the twenty mile belt of land extending from Esquimalt to Seymour Narrows. We experience no less difficulty in understanding how, during the continuance of that embargo, the Government can deal with these lands. It has already been announced that on Saturday last three parcels of land in Quamichan, being within the scope of the embargo, were actually sold to settlers at the rate of one dollar an acre. The reasonable inference seems to be that all these lands are open to be dealt with either by purchase or pre-emption. If so, why have not the public been made aware of the important fact? This is not the sort of thing to be done in a corner, like the famous free grant Order in Council. There are very many persons interested in the matter; and we hesitate not to say that, were the belt of land in question proclaimed open to purchase or pre-emption, scores of applications would rush in. Unless the reservation has been actually withdrawn, we cannot understand how the Government could do what they have done. If it has been withdrawn, it is very wrong to keep the fact a secret. If it has not, but still the Government are empowered to deal in any way with the lands embraced therein, surely it is their duty to make the nature and scope of their powers public, in order that those interested may have a proper opportunity of taking advantage of them. The public have clearly a right to know how this matter stands, and the highly paid organs of the Government would be much better employed in diffusing information upon such subjects than they are in heaping abuse upon any journal that dares to expose and criticise Ministerial misdoing.

Washington Territory.

The Tacoma "Tribune" reports the arrest of a mother, daughter and son-in-law at Tacoma last Sunday evening while en route to Brtiish Columbia. The mother and her husband have for many years lived on the Puyallup, where they owned a valuable farm and raised a family of children. One of these, the daughter referred to, recently married a young man, who cospired with his wife and mother-in-law against the head of the family. The mother mortgaged the farm for $300; with this money and some personal effects the trio left their home in this country a few weeks ago. Shortly before leaving, the young man tried to stab his father-in-law with a knife. Learning they were coming down on the steamer last night from Olympia, the injured father and husband (whom we have known for many years as a sober, industrious, and every way worthy citizen) procured a warrant and had them arrested. The runaways are in custody.

There came to the Dalles on Tuesday of last week, direct from Missouri, four emigrant wagons, containing as many families, en route for Puget Sound. They left Missouri the middle of May, making the time on the road over four months.

The "Bulletin" says: "The steamer Idaho is to sail from San Francisco for Kalama with railroad iron for the Northern Pacific Railroad, and when discharged, she will return with a cargo of Oregon produce.

The Seattle *Despatch* gets off the following hit at Tacoma:—

We are informed that the Saranac could not find anchorage at Tacoma. After sounding all over the harbor the Admiral sent a boat ashore with a message stating that he would have to go to Stellacoom for anchorage and would visit them in a buggy.

The Governor gave a splendid entertainment at his residence, Olympia, on Tuesday evening, in honor of Admiral Pennock.

Howdo You Feel!

The fervid heats of summer are now over. In wh condition have they left you? Is your liver torpid or disordered, your appetite feeble, your digestion imperfect or painful, your nervous system shaky, your mind lethargic? This is the state in which the autumn finds tens of thousands of us, and in this state we are ripe for the malarious fevers, and bowel complaints, and bilious diseases, which the heavy dews, the vapors, and the vast difference between the temperature of night and day are apt to engender. Rouse yourself from this condition with Hostetter's Stomach Bitters. Wake up the latent ventilation of the body, which only requires the stimulating, strengthening and regulating agency of this mighty vegetable restorative to enable it to resume its activity and potency. Indigestion, biliousness, miasmatic fevers, and disorders of the bowels, are the usual sequences of a long heated term. Prevent or cure them with the Bitters. You can do either, but prevention is better.

HALL'S SAFES.—Mr. Wm. B. Wilshire, Agent of the Hall's Safe & Lock Company of Cincinnatti, Ohio, is in this city. He has one of the Company's celebrated fire-proof safes, which can be seen for a few days at the auction store of J. P. Davies & Co., Wharf streets. These safes have stood the test of the Chicago and other large fires. They are all made with Hall's patent combination lock without key or or key-hole. The public are invited to call and examine the safe. A large number have been sold on this Coast. They are of beautiful finish and the locks are the most ingenious we have ever seen.

FELL'S COFFEE, superior to any other manufactured on the Coast, may be obtained of all respectable dealers throughout the Colony.

By Electric Telegraph.

THE "COLONIST'S" SPECIAL DISPATCHES.

LAST NIGHT'S DISPATCHES.

Eastern States.

CHICAGO, Sept. 17.—Evening—The total loss by the fire this p.m., is estimated at from 250,000 to 300,000 dollars. The total number of buildings destroyed is placed at 64, they being wooden tenements from one to three stories high, and were occupied mostly as residences, shops and stores. The fire originated in a large wooden shed used by the Chicago Burlington and Quincy and the North Western Railroad during the storing of a transfer of hay. Situated on the corner of Newbury avenue and the Railroad track between Fifteenth and Sixteenth streets. The number of families rendered homeless is greatly disproportioned with the number of houses burned, as every tenement was crowded to its utmost capacity. Many of them containing five or six families.

WASHINGTON, Sept. 17.—A dispatch from the commanding officer at Key West reports that all the cases of yellow fever on board the Pawnee (some half dozen) are doing well. Only one other death than that of Paymaster Waiter, of the Pawnee, who died on shore. There were no cases of fever in Key West, and the officers and crew of the Sangus were in excellent health.

MEMPHIS, Sept. 17. — The Board of Health reports eleven deaths to-day—nine from yellow fever.

NEW YORK, Sept. 17.—The wife of the Rev. Mr. Wisewell, of St Johns chapel in this city, has sued her husband for a portion of her property which he converted to his own use. She is a daughter of Bishop Bereiam of Trinity Church. She was worth $70,000 when she was married, and charges Wisewell with robbery and infidelity.

PHILADELPHIA, Sept. 17.—A large fire is progressing in Jessop & Morse's paper and rag warehouse, corner of Sixtyeth and Arch treets.

BUFFALO, Sept. 17. — Professor King after landing his editorial passengers at Hornby, Stenben Co. started alone in his balloon for Buffalo at 2 o'clock this p.m. in a south easterly course for as long a trip as is possible for him to make.

WHALLEY'S POINT, N.Y., Sept. 17.—The balloon for Buffalo passed over this place at 4 o'clock this p.m. A paper from the balloon endorsed by Professor King, was dropped on the Fair grounds.

Canada.

HAMILTON, Ont., Sept. 17.—A misplaced switch threw the New York express train on the Great Western Railway from off the track at Stony Creek this morning. The engineer and fireman were badly injured; 2 baggage cars and a coach were burned, the baggage was saved.

Europe.

PARIS, Sept. 17—Mr. Stearn, an English traveller just arrived from Central Africa, reports that he met Dr. Livingstone last June and started from him on the 1st of July. The Doctor was then in perfect health.

LONDON, Sept. 17.— Earl Hardwick, Lord Lieutenant of Cambridgeshire, died to-day, aged 74.

PARIS, Sept. 17.—The deaths from cholera in this city from the 9th to the 14th, inst. was 121.

VIENNA, Sept. 17.— The King of Italy arrived to-day and was cordially received bo the Emperor and the populace.

California.

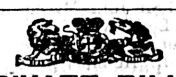

SAN FRANCISCO, Sept. 18.—Arrived—W.H. Gawley, Port Towsend.

DIAMOND SPECTACLES

THESE SPECTACLES ARE MANUFACTURed from "Minute Crystal Pebbles" melted together and are called **Diamond** on account of their hardness and brilliancy.
It is well known that spectacles cut from Brazilian or Scotch pebbles are very injurious to the eye because of their polarizing light.
Having been tested with the polariscope, the diamond lenses have been found to admit 15 per cent. less heated rays than any other pebble.
They are ground with great scientific accuracy, are free from chromatic aberrations, and produce a brightness and distinctness of vision not before attained in spectacles.
Manufactured by the Spencer Optical Manufacturing Company.
For sale by responsible agents throughout the Union,

Capture of Chillahan.

It will be remembered that, on the 3rd inst. an Indian named George was murdered at South Saanich, and that the Coroner's jury charged another Indian named Chillahan, with the crime. Since that date Chillahan has been evading the officers of justice, having been for the most part on San Juan Island. Mr. L.P.Lewis, Constable of Lake District, has had the matter in hand, and succeeded in arresting the rascal at the South Saanich ranch-erie, yesterday morning, handing him over to the Warden of Victoria gaol, where he now lies awaiting trial. Constable Lewis has displayed a great deal of energy and tact in this matter, and his services are certainly deserving of some more substantial reward than the paltry fees. Criminal stoo frequently succeed in escaping; especially Indian criminals, the facilities they possess for doing so being very great in a country like this; and if such services as Constable Lewis has rendered were fittingly rewarded the results might be beneficial.

Theatre Royal.

Mme. Stevenson's last concert came off yesterday evening with considerable *eclat*, notwithstanding the unfavorable state of the weather and of a number of our citizens being tired out by the ball of the previous night. The fair cantatrice, if anything, excelled in her varied performance. Her operatic, dramatic and comic powers are unrivalled. Her voice imitations of tenor, contralto and soprano are admirable, the impersonation of different characters are pleasing achievements of the histronic art under her winning acting. Among the gems of the evening were the "Echo Song" and "My Pretty Jane" (both by request), and "Terrence's Farewell to Kathleen," a sweet piece of music by Countess Dufferin. We wish Mme. Stevenson the success she deserves wherever she may perform.

ANOTHER!—Canada has not got the Railway Scandal off her hands when up springs another. This time it is a Letter Scandal. Briefly stated, the case stands thus, that is to say, assuming the genuineness of the letter: On the 1st inst. Sir John wrote to "My Dear Pope," at Montreal a private and confidential letter, giving certain instructions about providing a Conservative candidate for the West Riding, before taking any official steps about Hon. John Young's appointment to the Inspectorship of flour. This letter disappeared mysteriously from the Montreal Postoffice and found its way into the *Herald*, a strong Grit journal. An investigation was instituted in the Police Court, when it appeared that the letter had been abstracted from the Postoffice by unknown hands and enclosed to Hon. John Young, who handed it to the editor of the *Herald*, who published it. The most rigid investigation was being made, with a view to discovering the means by which this letter reached the hands of the Grits. Meanwhile the case shows to what fearful lengths party politics is leading the Opposition in Canada.

THE JUVENILE ENTERTAINMENT. — Yesterday afternoon the boys and girls belonging to the public schools in this city, to the number of over three hundred, marched in procession to the Alhambra Hall to avail themselves of Uncle Frank's kind invitation to see Reed's great Panorama. The sight was a most interesting one, the young faces beeming with pleasurable expectation. They marched up the stair to the music of a fife, played by a good-natured petty officer from one of H. M. warships. Between the children and the adults who were admitted, the large hall was quite filled. The children appeared to be very much interested, and the girls sang very beautifully several pieces, showing the practical fruits of good training in vocal music.

DEPARTURE OF THE TENEDOS.—At 8:30 yesterday morning H. M. S. Tenedos sailed for the South with Vice-Admiral Hillyar and suite on board. As the gallant ship steamed slowly out of the harbor the rigging of all the remaining ships was manned by sailors, cheering and waving their caps for the departing Admiral, the Band of the Repulse at the same time playing "Auld Lang Syne." Many were watching the departure from the shore. The departure of this ship appears to occasion very general regret, as her officers made many friends during their stay on this station. May they have a pleasant cruise and a speedy return.

MOMENTOUS FAILURE. — A private telegram was received in this city last evening announcing the failure of the great New York banking firm of Jay, Cook & Co. The failure of this, the largest monetary firm on the continent, is an event the full consequences of which it is impossible to realize. Its influence upon the Northern Pacific Railway will doubtless be very serious.

MR. A. ROSE & CO.---We are in receipt of a very neat card from Messrs. Rose & Co., plain and fancy job printers. As a sample of the work done at their establishment, it is very creditable and we feel sure they will secure the patronage they deserve and that we heartily wish them.

THE MUSIC---The fine band that played such fine music at the Ball on Wednesday night was Haynes and Palmer's, and not the Repulse's, as stated yesterday.

THE steamer North Pacific, Capt. Starr, arrived yesterday at 3,30 p. m., bringing about 20 passengers, the mails and some live stock.

Municipal Police Court.

[Before A. C Elliott Esq., P. M.]

Peter Williams, charged with supplying spirituous liquor to an Indian, remanded from the 17th, was committed to the Lunatic Asylum on the Certificate of Drs. Helmcken and Mathews.

REED'S PANORAMA.—The Alhambra divided public attention with the Theatre Royal last night. There was a very fair audience to take a last look at this beautiful and interesting work of art. There can be little doubt that the panorama will have a good run in the Eastern States, where, we understand, it will shortly be exhibited.

FROM NANAIMO.—The steamer Sir Jas. Douglas, Capt. Clarke, arrived yesterday at 7:30 p.m. with the mails, a small cargo and a few passengers, among whom we noticed Miss Guillon, Mr. and Mrs. Quenelle, Mr. Allsop and Mr. Hirst. There is no news of importance.

PEREMPTORY.—A London dispatch of the 12th inst. says: "It is reported that Earl Granville has told the Spanish Representatives that the British Government insists on the liberation of the officers and crew on board the yacht Deerhound."

THE RESULTS.—Our exchanges contain distressing accounts of the disaster and death occasioned on the coast of Nova Scotia by the terrible gales which occurred at the close of last month.

THE Hon. George Brown was expected back from Europe about the 13th inst., and it was expected he would be summoned before the Commission to tell what he knows about the Railway Scandal.

THE COMMISSION.---We give up a good deal of space this morning to an account of the proceedings before the Pacific Scandal Commission, sitting at Ottawa. So far, the evidence is strongly exculpatory of the Government.

MEETING OF PARLIAMENT.—The Toronto *Mail*, likely to be well informed on the subject, says "It is believed that Parliament will be called together in November."

THE FLEET.—The men-of-war on this station, it is rumored, at an early date, will go on a cruise for gun practice. The quarterly allowance of powder has to be burnt in order to warm up the big guns.

PRINCE EDWARD ISLAND.—The general Federal election in this new Province was appointed for the 17th inst., the nomination being on the 10th.

MRS. LINCOLN, widow of the late President Lincoln, was at Ottawa in the beginning of the present month.

PERSONAL.—J. F. McCreight, Esq., arrived at the Russell House, Ottawa, on the 3d inst.

MANITOBA.—It was currently reported that Judge Ramsey of Quebec, would be made Chief Justice of Manitoba.

The Deadheads.

To His Excellency the Lieutenant-Governor of British Columbia.

HONORED SIR.---We the undersigned, respectfully request that your Excellence will use your position so as to secure for the Commissioner of Lands and Works one thousand dollars over his present salery for the purpose of enabling him to attend the different places of amusement. His present income of $3,750 not being sufficient, he is obliged to have recourse to his Satanic Majesty, the Printer's Devil, to obtain deadhead tickets. This should not be. We are a growing and enterprising people and anything that has a tendency to mar the pleasure of those in power should not be tolorated for one moment.

Permit us to remain your Excellency's obedient servants. AMO DEMODACAS and 10 others.

A Good Suggestion.

EDITOR COLONIST, SIR. — Goethe remarked that "Praise was the organ of many good actions."

Would not many of our friends have true thanks and praise for a little charitable thought and good act in giving freely some of their bountiful supply, either of fruits or flowers, to the sick and needy at the Royal Hospital? It seems strange, dubious—even fiction-like, to think an institution of this kind should be forgotten in this respect, since that nothing can be raised on its rocky site; and more surprising, too, when so many gardens are laden, even to a disadvantage, by such a clime. Doubtless, to the knowledge of many, the quantities of fruit here are stored even to rot for want of market or use; the flower goes to decay on its stem, yet not even one is gathered for a charitable enjoyment in the house of sickness and adversity. A flower, the pencil-touch of Nature in its most humble yet beautiful aspect, will often, if brought to view, tend to bring home to the mind something relative to its Maker; and surely nothing can be lost in simply adorning the house where the sick and unfortunate are with such emblems as an offering of consolation and purity to the blighted soul.

We must admit that to give heartily some of the fruits and flowers—yes, and even linen rags, too—by some of our good citizens to such an institution as an hospital would be praiseworthy in the highest degree, and the example would tend perhaps to further actions of good benevolence and good.

There are some orchards and gardens overflowing annually with abundance of all kinds and are even stored to rot.

How much better would it be to say they rot in charitable institutions than have it said they rot and waste in houses of comparative wealth? Yours faithfully,

VICTORIA, Sept. 16. F.J.S.

THE SCANDAL COMMISSION.

Six Day's Proceedings.

Evidence Favorable to Government.

OTTAWA, Sept. 5.

The first witness called to-day was Victor Hudson. He knew nothing about negotiations between Sir Hugh Allan and Americans. Was a member of the Cartier Election Committee. Knew that large sums of money were subscribed by friends toward the elections. Heard that Sir Hugh Allan was a subscriber; did not know to what amount.

A long time was taken up with reading correspondence. The official reporters not having completed the transcript of Sir F. Hincks' evidence, that gentleman read it himself, while the concluding portion was being completed. On coming to the portion of his evidence alluding to Mr. Macpherson's anxiety to see members from British Columbia in the Pacific Railway Company, Sir Francis said he desired to explain, otherwise some misunderstanding might arise. He proceeded—There were in the very charter whichwas obtained in 1872 by the Canada Pacific Company, that is Sir Hugh's company, as I may call it for convenience sake, and probably in Mr. Macpherson's company, though I do not recollect—the charters will speak for themselves—there were, I say, names of Grits from from British Columbia and the Maritime Provinces included in both charters.

OTTAWA, Sept. 6th.—The Royal Commission resumed its investigation at noon to-day. The Ministers were represented by Sir John Macdonald, Hon. F. Langevin, A. Campbell and H. Aikens.

Sir Francis Hincks came forward and signed his deposition, after which Senator MacPherson was called and sworn. He was acquainted with Mr. McMullen, but he had no personal knowledge of the agreement mentioned in Huntington's charge. In February 1872, Sir Hugh Allan told him that he (Sir Hugh) was in negotiation with the Americans, and had come to an understanding with them. MacPherson then read a conversation he had with Sir Hugh, and also the correspondence with him which has already been published. They refer to Sir Hugh's efforts to induce MacPherson to join with him and the American capitalists in undertaking the construction of the Pacific Railroad, and MacPherson's objections on the ground that Canada was not sufficiently represented in the proposed company.

Witness resumed—He was not personally sure that McMullen represented the Americans, but he understood so.

The Judge read Mr. Huntington's statement, that all the funds were to be furnished by the Americans.

MacPherson said that this was incorrect. Sir Hugh told him that the Americans were to pay seventeen-twentieths. Witness did not know that Sir Hugh was to be paid a percentage, nor that he was to be at the head of the company. He did not know that the Government was aware of the negotiations of the Americans, nor that the Government had an understanding with Sir Hugh or Abbott respecting furnishing an election fund. He knew nothing of Sir Hugh's support of the Government candidates, nor of any agreement between the Government and Sir Hugh respecting the Pacific charter being promised on condition of his furnishing funds to the Government. MacPherson never consented to accept stock in Sir Hugh's Company. He (witness) was President of the Inter-Oceanic Company, which was formed with the object of defeating Sir Hugh's scheme. *He was aware that the Canada Pacific Company had informed the Government that as a Company, they never had any negotiations with the Americans; but from the fact of Sir Hugh's intimate relations with the Americans, he was afraid they might virtually have a leading interest in the railway.* He had no other reason for believing that the Americans had a share in the Canada Pacific. He had a conversation with Sir John respecting an amalgamation. Sir John urged it on the ground that it would give much greater strength to the enterprise. Sir John had also written to him on the subject.

M. Beaubien having been called, was sworn. He stated that he was a member of the House of Commons and Vice-President of the Northern Colonization road. He was not aware of any negotiations between Sir Hugh Allan and the Americans respecting furnishing an election fund. Did not know that the Americans were to take stock in the Canada Pacific Company, nor did he know of an agreement between the Company and the Government respecting furnishing funds for the election. He was aware of one case where Sir Hugh loaned one candidate $7,000. He would swear positively that the Government knew nothing of the case then, and knew nothing of it now. Mr. Beaubien then recited his own case. After the elections were over some of his friends went to Sir Hugh Allan, and procured a loan for which Beaubien gave a note, which was now due. Sir Hugh loaned him money on account of their friendship and relations in connection with the North Colonization road. No member of the Government knew anything about it, he not being a Government candidate.

Mr. Bethune, manager of the telegraph office at Ottawa, being called and sworn, said that a message dated Toronto, August 10th, signed John A. Macdonald, was not in his possession, nor one to Sir John A. Macdonald, signed J. J. C. Abbott. Messages were only kept six months, and then destroyed. The telegraph books at Ottawa for August, 1872, were searched, but the clerks found no messages between Sir John A. Macdonald and Sir Hugh Allan.

The Comuission adjourned at 2 P. M. to meet on Monday.

OTTAWA, Sept. 8th.—The Royal Commission resumed the investigation to-day. Beaubien made some correction of his evidence He did not think Sir George Cartier knew at any time that Sir Hugh had given him, Beaubien $7,000. He had learned that Hudson was not Chairman of the Cartier Committee. In reply to Judge Gowan, Beaubien said that he did not know how Sir Hugh would be reimbursed for this and other loans. He knew there was a general election fund, and thought his friends might subscribe for that purpose. He did not expect that the Government would pay it. Some of their friends might do something. The receipt he gave Sir Hugh was signed in Abbott's office, and he kept a copy. He knew Sir Hugh had subscribed to the Central Committee election fund, and said he, Beaubien, should receive help. Cartier insisted that he, Beaubien should not receive a cent, but he had reason to believe that the Committee without Cartier's knowledge, had helped two of his (B.'s) friends. As they were not members of the House, and the Government knew nothing of the transaction, he declined to give any name.

Bethune was recalled. Since Saturday he had found it impossible to examine the books for the whole period requested. He hed examined them from the 1st to the 6th of July, and for the month of September, as during the interval Sir John had been absent from Ottawa, and messages passing between him and the parties who received them would not be recorded at the office here.

Hon. J. S. Beaudry was called and testified: Was a Provisional Director in the Canada Pacific Railroad Company. [Judge Day here read Huntington's charges.] In reply to a question, witnss said he had no knowledge of any agreement between Sir Hugh and McMullen respecting the construction of the railroad, or respecting American capitalists furnishing money to build the road. Knew nothing about election funds. Was told by members of the Cartier Committe that they had subscription list for the purpose of defraying the expenses of election. Did not see the list of subscriptions During the canvass; he was asked by the Committe to go to Abbott, which he did, and signed a receipt for twenty thousand dollars. Did not see the money. The receipt was left with Abbott. Understood this was Sir Hugh's subscription. The only conditions he knew of were contained in the receipt. Gave no receipt to Abbott or any other party for Sir Hugh or any one else. Did not see the receipt since. Did not know of any other sum paid by Sir Hugh. Had not seen the Cartier letters of July 30th and Aug. 24th when he signed the receipt. The letter of July 30th was subsequently shown him by Murphy. Had signed the letter of the 23d July, published in the *Gazette*; the statements in that letter were true; did not know the amount of subscriptions to the election fund. The Committee was a general one; there were committees in each ward; had nothing to do with the payment or receipt of money; considerable sums of money were paid out by checks on the Metropolitan Bank; believe $20,000 were paid in consequence of Cartier's letter. My reason for believing so was the wording of the receipt, which referred to the letter, apparently showing that Sir Hugh had promised to subscribe. Knew of no condition on which Sir Hugh subscribed, nor whether he was to be reimbursed in any way. There was no money paid at the time of giving the receipt.

The next witness called was Pat Murphy, who testified that he had no knowledge or any agreement between Sir Hugh and McMullen respecting the Pacific Railroad; was connected with the Northern Colonization Road. Knew nothing of any understanding between Sir Hugh and the Government respecting the furnishing of funds; the total amount of subscriptions to the election fund was about $65,000; Sir Hugh first subscribed $10,000; the second time a like sum, and the third time $20,000. Signed the receipt for the latter amount; had not seen the receipt since the latter sum was paid, in consequence of Cartier's letter; saw Cartier's letter of 30th July about a month ago in Abbott's hands: there were other sums besides Sir Hugh's subscribed, ot which his was the largest. The condition of Sir Hugh's subscription was that Beaubier should be helped out with funds if he had opposition. Knew nothing of telegrams which were said to have passed between Sir Hugh and Abbott. No application was made for money to help Beaubier. Adjourned.

OTTAWA, Ont., Sept 11th.—The Royal Commission met to day. Sheriff Leblanc made an addition to his testimony. He had testified that he never knew anything about the Pacific Railway. He has since remembered two conversations he held with Sir George Cartier on the subject in June, in which Cartier said that the Pacific Railway must be put through; that he would never consent to Americans having anything to do with it; and that if the Canadian companies united, the enterprise would be successful. Witness came with others as a deputation to Sir George, respecting the Pacific Railway and Northern Colonization road. Sir George was glad to meet them as their representative, but he could answer no questions as Minister. He (Sir George) refused to risk his election in connection with any railroad interests. He said he had done the best for the country, and would contest the election on his own merits. The deputation had two interviews with Sir George previous to the general election; on both occasions he expressed himself strongly against allowing American influence in Canadian railways. He had a private interview with Cartier on the day previous to the election, when he (Cartier) again expressed himself as determined to run his election on his own merits, and would not seek support by committing himself to any railroad policy.

George W. McMullen was called, but failed to appear.

D. McMullen was then called and sworn. He lived in Chicago, and was a banker, in partnership with his brother. Saw the original agreement between Americans and Sir Hugh, respecting the Pacific Railway. Saw several of Sir Hugh's letters; they were dated from the fall of 1871 up to the fall of 1872. Did not know Sir Hugh's handwriting. Part of the letters were addressed to C. W. Smith, and part to G. W. McMullen. The letters were not in his brother's possession now. His brother told him that the letters were in a packet, in the hands of Mr. Starnes, that all the important ones were. Never saw the parcel, said to be given to Starnes. Remember seeing Sir Hugh's first letter, also one giving a rough sketch of how much money Sir Hugh had expended, one giving a statement of how the stock was to be divided, and another stating the decision of Government to exclude the American element from the company. The first letter was addressed to C. W. Smith.

Sir John stated that he wished it understood that the Government did not consider themselves in any way affected by the evidence concerning Sir Hugh's negotiations with Americans.

Witness was shown several letters from Starnes' package, but could not identify them. The first one, above mentioned, was not in the package. Witness stated that the letter containing the statement of money expenditures was received from Sir Hugh in February, 1872. Witness here identified several letters, among them the one relating to money expenditures; it was dated September, 1872. He said he did not believe that the letters closing the correspondence were put in the package, as they were not of sufficient importance.

Judge Gowan—Why not of importance?

Witness—Not of importance, as affecting the negotiations.

Judge Gowan—As they closed the correspondence they must have been important.

Witness here got confused, and could give no reason why these two letters were not important. He did not believe they were in Starnes' package. Witness was here shown two letters, and admitted that they were the two referred to. This admission caused laughter in Court. In answer to a question, witness stated that he knew the contents of the contract between the New York parties, his brother, and Sir Hugh, respecting the formation of the Pacific Railway Company. Thought the contract was made in the Fall of 1871. His brother prepared the memorandum before leaving for Canada. He went to see Sir Hugh after his return from England; was away about six weeks, and returned with the contract signed by Sir Hugh. Among the American names were Gen. Cass, A. Ogden, Gov. Smith, of Vermont, Mr. Scott, and the President of the Adams' Express Co. The contract was now in the vault in their office in Chicago. Did not see it put there; saw it about a year ago, with his brother at Pictou; had not seen it since.

Cross-questioned by Sir John — Was familiar with and interested in all the Pacific Railway negotiations; was his brother's confidential partner. C. W. Smith and Mr. Hurlbut were also interested. Saw Allan's letters published in the Toronto *Globe*. Did not know how they got there. Did not know how much his brother got for selling the correspondence. Afterward recollected that his brother got $20,000. Did not know who paid it. Did not know whether his brother showed the correspondence to any one. Recollected his brother telling him (witness) that he (George) had shown the correspondence to Sir John. Did not know whether his brother got an additional $25,000. He forfeited $17,000, as it was agreed that if the correspondence contained in the Stanes packet was published before a certain time, McMullen was to forfeit $17,000. Did not know how his brother was to be reimbursed for this loss. The $20,000 paid him for the correspondence was divided among witnesses Hurlbut and Smith, after his brother had taken his share. Did not know that his brother had showed the correspondence to Senator Foster. Kept no copies of the letters, no letter-book, and no account of money in connection with the Pacific Railway matters. Witness was much confused during the cross-examination by Sir John, and contradicted himself frequently.

OTTAWA, Sept. 12—The Commissioners met again at noon to-day, and were engaged a long time on McMullan's deposition. He was further questioned by Judge Gowan and Sir John Macdonald.

Hon. C. Lopas was then examined in French, but no evidence of importance was elicited. He most positively denied that any understanding had been come to by the Government with Sir Hugh, having relation to the supplying of funds for the election. Of the railway he said Sir Francis Hincks had formed the idea of employing American capitalists, but Sir Geo. Cartier strongly opposed it.

Hon. Mr. Stairns was recalled. Before hearing his deposition read, he stated that $66,750 was the exact amount of money subscribed to assist Sir George's election. Mr. Staines' deposition was then signed and the Commission adjourned.

JAMES T. FIELDS, in his gossippy lecture on the habits of novel writers, says:—"Dickens was at one time taken possession of by the characters of whom he was writing, that they followed him everywhere and would never let him be alone a moment. He told me that when he was writing the 'Old Curiosity Shop,' the creatures of his imagination so haunted him that they would neither allow him to sleep nor eat in peace; that Little Nell was constantly at his elbow, no matter where he might happen to be, claiming his attention and demanding his sympathy, as if jealous when he spoke to anyone else. When he was writing 'Martin Chuzzlewit,' Mrs. Gamp kept him in such paroxysms of laughter by whispering to him in the most inopportune places—sometimes even in church—that he was compelled to fight her off by main force when he did not want her company, and threaten to have nothing more to do with her unless she could behave better and come only when she was called."

M. GOUNOD is in anger with the population of Great Britain. He rushes into print to tell that people that he will allow none of his operas to be performed in England until justice is done him in the matter of *Faust*. In *Faust*, by an error of his publishers in neglecting to have it registered, he practically has no copyright, and until English operatic managers pay him a reasonable sum per night for his *chef d'œuvre*, he will forbid the performance of any of his other operas in England.

A WICKED BOY "ASTRONOMIZES."—They say, writes Max Adeler, that the chief astronomer at the Washington Observatory was dreadfully sold a few days ago. A wicked boy, whose Sunday school experience seems only to have made him more depraved, caught a firefly, and stuck it, with the aid of some mucilage, in the centre of the largest lens in the telescope. That night when the astronomer went to work he perceived a blaze of light apparently in the heavens, and what amazed him more was that it would give a couple of spurts and then die out, only to burst forth again in a second or two. He examined it carefully for a few moments, and then began to do sums to discover where in the heavens that extraordinary star was placed. He thought he found the locality, and the next morning he telegraphed all over the universe that he had discovered a new and remarkable star of the third magnitude in Orion. In a day or two all the astronomers in Europe and America studying Orion, and they gazed at it for hours until they were mad, and then they began to telegraph to the man in Washington to know what he meant. The discoverer took another look, and found that the new star had moved about eighteen billion miles in twenty-four hours; and, upon examining it closely, he was alarmed to perceive that it had legs! When he went on the dome, the next morning, to polish up his glass, he found the lightning-bug. People down at Alexandra, seven miles distant, heard part of the swearing, and they say he infused into it much whole souled sincerity and vigorous energy. The bills for telegrapic dispatches amounted to $2,600, and now the astronomer wants to find that boy. He wishes to consult with him about something.

C. Francis Barnard, M. D.

SURGEON DENTIST.

DR. BARNARD HAS HAD FOR several months the "Perkins Hyatt" or "Celluloid Base," the newest and latest material adapted to the mounting of whole sets of teeth; he is also using "Whalebone-Rubber," which is rapidly supplanting, for single dentures or partial sets the best vulcanites of the last 25 years.

We cheerfully add Dr. B's card to our columns, convinced that his good taste and judgment, united to natural skill and ingenuity, aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other Dentist on the Sound, Coast or Island.

Dr. B's large experience may be readily seen in the happy and natural expression given his patrons by his life-like insertion of artificial Teeth.

The public may rest assured of patience, gentleness and undivided attention while under the Dr's hands, and that he will ever strive to be foremost in adopting helps and hints touching his own interest and that of his patrons.

BY-LAW

Fixing the amount of License to be paid by certain Houses lately outside, but now included, within the City Limits.

JUNE 28TH, 1873.

WHEREAS BY LETTERS PATENT DATED the 9th day of May, A. D. 1873, the Lieutenant Governor in Council extended the limits of the abovementioned Corporation and defined such limits, whereby the several Taverns hereinafter mentioned became and are included within such limits;

And whereas it is expedient to fix the amount of License to be paid by such Taverns;

Be it therefore enacted by the Mayor and Council of the Corporation of the City of Victoria as follows:

1. Each person selling fermented or intoxicating liquor by retail for or at any time during the six months commencing on the First day of July, A.D. 1873, in any of the Taverns hereinafter mentioned, shall for each such Tavern so used by him pay the sum of Thirty-five Dollars for his license.

2. The Taverns hereinbefore referred to are the following, namely:—1. Park Hotel, Beacon Hill Park; 2. Lion Tap, Cedar Hill Road; 3. Rock Bay House, Esquimalt Road; 4. Bridge Tavern, Saanich Road.

BY-LAW

To regulate the duties of the Water Commissioner.

JUNE 28TH, 1873.

WHEREAS IT IS EXPEDIENT TO REGULATE and define the duties of the Commissioner appointed under "The Corporation of Victoria Waterworks Act, 1873."

BE IT THEREFORE ENACTED by the Mayor and Council of the Corporation of the City of Victoria as follows:

1. The said Commissioner shall subject to the approval and control of the Mayor and Council aforesaid, design, construct, build, purchase, improve, hold and generally maintain, manage and conduct, Waterworks and all buildings, matters, machinery and appliances therewith connected or necessary thereto, for the purpose of conducting a sufficient quantity of pure and wholesome water from Elk Lake and Beaver Lake to the adjacent City of Victoria for the use of the inhabitants thereof, and shall examine, consider and decide upon all matters relative thereto.

2. The said Commissioner shall keep separate books and accounts of the receipts and disbursements for or on account of the construction of the said Waterworks distinct from the books and accounts relating to other property, funds, or assets belonging to the said Waterworks, and a record of all his official acts; and all such books and records shall be open to the inspection and examination of the Mayor and Council or any of them, or any person or persons appointed by them for that purpose.

3. The said Commissioner shall, at least twice in each month during the construction of the said Waterworks, attend the Mayor and Council in Committee and report to them in writing the progress of such Waterworks and such information respecting the same as they may require.

4. The said Commissioner shall, on or before the 31st day of December in each year, cause a return to be made to the Mayor and Council of the affairs of the said Waterworks, showing a statement of the amounts of the rents, issues and profits arising from the said Waterworks, the number of tenants supplied with water, the extent and value of the movable and immovable property thereunto belonging, the amount of debentures then issued and remaining unredeemed and uncancelled, and the interest paid thereon or yet due and unpaid, and the state of the sinking fund, the expenses of collection and management and all other contingencies, salaries of officers and servants, the costs of repairs, improvements and alterations, the prices paid for the acquisition of any real estate that may be acquired for the use of the said Waterworks, and generally such a statement of the revenue and expenditure of the said Waterworks as will at all times afford complete knowledge of the state of the affairs of the said Waterworks.

5. The said Commissioner shall give security in bonds to the amount of two thousand dollars, to be approved by the Mayor and Council, for the faithful performance of his duties.

6. The said Commissioner shall, whilst he shall continue to be so employed and during the construction of the said Waterworks, receive as remuneration a salary at the rate of Eighteen Hundred Dollars per annum, payable by equal monthly instalments.

7. The duties of the said Commissioner shall, subject to this By-law, be such as are further defined in "The Corporation of Victoria Waterworks Act, 1873."

8. This By-law may be cite for all purposes as "The By-law Defining the Duties of the Water Commissioner, 1873."

DR. J. COLLIS BROWNE'S

(Ex Army Med Staff)

CHLORODYNE,

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W P Wood stated that Dr. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE: that the story of the defendant, Freeman, being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr J Collis Browne was the discoverer of Chlorodyne: that they prescribe it largely and mean no other than Dr Browne's—See TIMES, July 12, 1864.

The Public therefore are cautioned against using any other than

DR J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the nervous system restores the deranged functions and stimulates healthy action of the secretions of the body without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvelous good effects and wonderful cures while medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma Cramp Rheumatism, Neuralgia, Cough, Hysteria, &c

The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See Lancet Dec 31, 1864.

From A Montgomery, Esq., late inspector of Hospitals, Bombay: Chlorodyne is a most valuable remedy for Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months severe suffering, and when other medicines had failed.

Dr Lowe, Medical Missionary in India reports [Dec 1865] that in nearly every case of Cholera in which Dr Collis Brownes' Chlorodyne was administered the patient recovered.

Extract from Medical Times, Jan 10, 1866—Chlorodyne is prescribed by scores of orthodox remedical practitioners. Of course it would not thus be singularly popular did it not supply a want and fill a place.

Extract from the general Board of Health, London, as to its efficacy in Cholera.—So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases,

Beware of spurious and dangerous compounds sold as CHLORODYNE from which frequen tfatal results have followed.

See leading article, Pharmaceutical Journal, Aug 1, v869, which states that Dr J. Collis Browne was the inpentor of Chlorodyni: that it is always right to use his reparation when Chlorodyne is ordered. FRENCH MEDICINES

Prepared by

GRIMAULT & CO.,

Pharmaceutical Chemists,

8, Rue Vivienne,

PARIS.

OF ALL THE MEDICINES OFFERED TO the public for many years past, none have met with such favorable reception, or as been so generally approved by the Medical Profession as those prepared by Messrs. Grimault & Co.

The model Laboratories of this firm, situated at Neuilly-sur-Seine, and managed by Dr. Leconte, Professor in the Faculty of Medicine, ex-Pharmacist of the Hospitals of Paris, and formerly Assistant to Dr. Claude Bernard, Professor of Physiology at the College of France, offers guarantees to be found in no other establishment.

Among other preparations we may specially mention:—

Leras' Liquid Phosphate of Iron.

It contains the constitutive elements of the bones and of the blood, add is the most rational of all chalybeates. It may be prescribed for the most delicate young females whose development has been retarded; for women suffering from stomach complaints, anæmia; for pale and sickly children deprived of appetite; and as its principal action is to restore to impoverished blood the iron in which it is deficient, and to the bones the phosphate that forms their base, it is recommended for debilitated persons whether their debility proceeds from disease or from any other cause. Its use is always attended with surprising results.

GRIMAULT & CO.'s

Syrup of Hypophosphite of Lime.

An excellent remedy for all affections of the chest; it relieves coughs, effectually prevents nocturnal perspiration and restors the patient's strength. This syrup is the only one which, ever since 1857, has invariably been attended with satisfactory results—a fact due to the purity of the hypophosphite employed. Be sure to observe that it bears the signature of Grimault & Co.

GRIMAULT & CO.'s

Iodized Syrup of Horse Radish.

Considered the best substitute for Cod-liver Oil. It has been ascertained by experiments made in the principal Hospitals of Paris that this syrup has always produced results superior to those obtained from the above-mentioned Oil, which patients find so disagreeable to take.

Not a single instance can be adduced in which pale lymphatic children, subject to swelling of the glands, to eruption of the skin, of the head or the face, or other inconveniences of a weak constitution, who have taken this syrup without deriving signal benefit from its use.

GRIMAULT & CO.'s

Pepsine Digestive Powders, Pills, Elixir and Wine.

Pepsine is one o the most recent scientific discoveries in theraputics. Acting chiefly on the organs of digestion, it possesses the property of effecting digestion by its innate virtues. It removes all the inconvencies of difficult digestion and even prevents the nausea to which pregnant women are liable.

The researches on pepsine made at the College of France by Dr. Leconte, in conjunction with Profess. Claude Bernard, must secure the preference for our preparation of pepsine.

Lagasse's Syrup and Paste of Sea Pine Sap.

Employed with success in the treatment of catarrh, bronchitis, hœmoptysis, and the different stages of phthisis.

It cures spitting of blood, the most obstinate coughs, alteration of the voice, oppression and pains of the chest, the nocturnal paroxysms of asthmatics, and modifies the more serious lesions of the respiratory organs.

GRIMAULT & Co.'s

Matico Injection and Capsules.

Composed of the essence extracted from the plant so called, they have been constantly employed with the most brilliant success in a certain class of contagious diseases.

They combine extraordinary efficacy with the advantage of never causing nausea, eructations, or pains in the stomach, as do the gelatinous capsules which contain Balsam of Copahu in a liquid state; or the strictures that result from the use of injections having a metallic basis.

GRIMAULT & Co.'s

Pectora Lozenges of Lactucarium and Cherry Laurel.

This delicious comfit, containing the two most soothing substances of the whole Materia Medica is employed with success against coughs, influenza, bronchitis, hooping coughs, &c.

Asthma. Asthma.

GRIMAULT & Co.'s

Indian Cigarettes of Cannabis Indica.

All the means hitherto employed to relieve Asthma have been only palliatives in varied forms, based on belladona, stramonium, nicotiana, or opium. Recent experiments made in the Paris Hospitals have proved that our Cigarettes made of the extract of Indian Hemp possess remarkable virtues against this complaint, as well as against nervous coughs, chronic laryngitis, hoarseness, loss of voice, facial neuralgia, and insomnonia.

Grimault & Co.'s Guarana.

A single powder of this vegetable production is sufficient to cure instantly the most violent sick headache. It is the most valuable remedy against diarrhœa, dysentery, and all disorders proceeding from derangement of the stomach or bowels. This powder is indispensable for all families, and far more efficacious than opium or sub-nitrate of bismuth.

GRIMAULT & Co.'s

Vermifuge Santonime Dragees.

Under the form of a comfit, equally pleasing to the taste and to the eye, they supply mothers with an easy and perfectly safe means of relieving their young children from intestinal worms, which are often the cause of convulsions.

Paleness of the skin and frequent irritation of the nose are nearly always the certain signs of the presence of worms. Preference ought always to be given in such cases to these dragees, the composition of which is well known and always the same, instead of those which are called vegetable, but often contain calomel or other forms of mercury.

GRIMAULT & Co.'s

Newfoundland Cod Liver Oil, and Cod Liver Oil, with Iodide of Iron.

The Cod-liver Oil which we offer to the profession and the public is especially extracted for our house in Newfoundland, and we can therefore guarantee its altogether exceptional purity.

Our Newfoundland Oil with Iodide of Iron, which ontains in every tablespoonful two grains of pure odide of Iron, is a valuable resource in lymphatic and crofulous affections, as also in consumption.

The Debentures will bear interest at the rate of Seven per cent. per annum, payable Half-yearly, and Cupons will be attached to each Debenture for said Interest, which shall be paid on presentation as they become due.

The Security offered for Repayment of Debentures is as follows:

A preferential Lien will be given on all works to be erected, also upon the land and other property acquired for Water Works purposes, and on the Revenue (amounting to about fifty thousand dollars per annum) which the Corporation have the power to raise under the Municipality Act, 1872, and the Municipality Act Amendment Act, 1873, the Road Ordinance, 1869, and the Road Amendment Ordinance, 1870. Ample security is thus given to those wishing to invest in Debentures.

A deposit of Ten per cent. on the amount of Debentures applied for will require to be paid into the Bank of British North America to the credit of the Water Works account, a receipt of said deposit to accompany the application, and on the Debentures being issued, they will be placed in the said Bank and handed over to the party who presents the Water Commissioner's Certificate of his being entitled to receive the said Debentures on his paying the full equivalent as mentioned in said Certificate; and in the event of the Debentures not being fully paid for on the day of issue abovementioned, the deposit of the Ten per cent. shall be forfeited to the use of the Water Commissioner for Water Works purposes.

Mr. F. W. Green, C. E., has been appointed by the Corporation as Engineer of the works to be constructed. The proposed Works consist in bringing water from Elk and Beaver Lakes into the City of Victoria, a distance of between five and six miles, and present no Engineering difficulties in carrying out the undertaking.

Forms of application for Debentures, with Bank Deposit Receipt attached, as well as any further information that may be desired, can be had by application personally or by letter addressed to the Commissioner
